2018 COLLECTION

MASONITE®

Open to extraordinary.

Open to
extraordinary™

Masonite is committed to delivering unsurpassed performance in interior and exterior doors and glass products. We want to provide not just a door, but a total experience, giving you a complete line of products, services and support tools designed around your success.

We are your leading source for the latest trend insights and design ideas, delivering distinctive door styles that complement any home and personal taste. From the classic lines of our Heritage Series™ collection to the wide open views of our VistaGrande® series, we offer the breadth of exterior door and glass options to meet any performance, material and design need, so you always have the right answer for your customers.

Every product we offer is the result of years of research, design, engineering and development that begins at the Masonite

Innovation Center in suburban Chicago, the largest facility of its kind in the industry. It is this dedication to a fully integrated design process that sets us apart from the competition and ensures every product we deliver lives up to our exacting standards for quality, consistency and craftsmanship.

YOUR TRUSTED PARTNER

Masonite is not just a trusted leader in exterior doors; we are a powerful partner who helps you elevate the role a door plays in your projects—creating more inspiring customer experiences and stronger business results.

- ▶ AvantGuard. offers a superior appearance by taking a cutting-edge approach to door design. Rather than simply applying stain over a fiberglass facing, a high-quality image is applied over a protective primer layer for an authentic, long-lasting finish.

- ▶ Featuring superior woodgrain texture, distinct raised mouldings and wider glass, Barrington. doors offer the ultimate in style and durability.

- ▶ *More Barrington. door options available, see page 12.

- ▶ VistaGrande. Flush-Glazed doors offer a wider viewing area and cleaner appearance over traditional glass inserts. Stile and rail features provide an authentic wood door look.

Belleville. smooth doors shown painted beige.

Our continuing program of product improvement makes specification, design and product detail subject to change without notice.

Our dedication to superior craftsmanship allows us to deliver unsurpassed quality and value in both fiberglass and steel entry doors. We offer a comprehensive selection of door styles, finishes and decorative glass options—all crafted with exacting attention to detail.

HERITAGE SERIES™ FIBERGLASS

BELLEVILLE™ FIBERGLASS

HD STEEL

- Heritage Series™ Craftsman door designs are available as opaque applications in both 6'8" and 8'0" applications to provide privacy and security or add one of the designs from our Heartland™ Craftsman decorative glass collection.

- Factory glazable with lip lite frame.

- Belleville doors feature distinct architectural details, a reinforced lock area and thousands of customizable glass and panel combinations to choose from.

- Masonite, HD Steel doors feature high-definition decorative panel profiles that closely replicate the appearance of a high-end wood door with the ultimate in security.

OAKCRAFT™ FIBERGLASS

- Oakcraft doors are specially engineered to provide performance and durability.

Imagine a blind you don't have to dust or clean. Our blinds are built into efficient sealed units protected with tempered glass. A single touch easily opens/closes blinds for privacy and light exposure.

- ▶ All sizes feature raise, lower and tilt functionality
- ▶ Security channels provide full privacy preventing light gaps when closed (no side or bottom gaps)
- ▶ Tight fit of frame to glass, no large gaps
- ▶ Spacer bars not visible in sightline of frame

- ▶ Smoother, easier and more versatile dual mechanism operation
- ▶ 80" sidelite now available
- ▶ Tan slat mini blinds now available
- ▶ Soft coat LE option for ENERGY STAR compliance
- ▶ HVHZ Hurricane impact-rated mini blinds now available

MASONITE GLASS

More Light. More Comfort. Less Energy.

As the leader in both innovation and trend, Masonite has invested in new state-of-the-art automated high-speed warm edge spacer assembly lines that put Masonite Glass at the forefront of the door lite industry.

Warm-edge flexible spacers have been shown to have up to nine times the life expectancy of traditional metal insulating glass systems available on the market today. They expand and contract and always return to their original shape, protecting against stress cracks that can lead to seal failure.

WARM-EDGE FLEXIBLE SPACERS
= LESS SEAL FAILURES

Warm-Edge Flexible Spacer
Flexible spacers can move as glass bows inward or outward, resulting in a reduction of seal failures when compared to metal spacers.

VS.

FULL-METAL SPACERS

Full-Metal Spacer
Metal spacers are rigid and seal stress can result in seal failure

SPACER SYSTEM	CONDENSATION RESISTANCE	EDGE OF GLASS TEMPERATURE	EFFECTIVE THERMAL CONDUCTIVITY	TOTAL IGU FACTOR
Warm-Edge Flexible Spacer	43.9	38.1°F / 3.39°C	0.182 W/m•C	0.265
Stainless Steel U-channel / butyl	38	35.1°F / 1.72°C	0.333 W/m•C	0.269
Stainless box / PIB primary sealant	36	33.6°F / 0.89°C	0.365 W/m•C	0.271
Tin U-channel / butyl	27.3	29.5°F / -1.39°C	0.806 W/m•C	0.278
Aluminum spacer / Silicone	19.6	23.7°F / -4.61°C	1.623 W/m•C	0.296

Simulations were completed using WINDOW 7.4 / THERM 7.4 as per NFRC 200-2014. Outside temperature 0°F, inside temperature 70°F.

PERFORMANCE BENEFITS OVER OTHER SPACERS

CLEARER VIEWING

Warm-Edge Flexible Spacers

All-foam design dramatically reduces interior condensation, delivering a clear view in warm-edge technology.

Less-Metal Spacer

Mid-performance spacer systems that still contain metal improve condensation resistance.

Full-Metal Spacer

With conventional metal spacers, condensation is a fact of life.

SOUND REDUCING

Improved sound absorption over traditional metal spacers; warm-edge flexible spacers are a huge help in keeping the decibels down.

LONGER LASTING

Warm-Edge Flexible Spacers

Warm-edge flexible spacers feature a unique no-metal composite-laminating technology that provides superior durability and thermal performance in insulating glass units.

ENERGY SAVING

The thermal performance of a window plays a major role in household energy conservation. A high-performance window system will keep your energy costs low by reducing heat loss in the winter and heat gain in the summer.

MASONITE GLASS

More Light. More Comfort. Less Energy.

As the leader in both innovation and trend, Masonite has invested in game-changing new automated, high-speed glass assembly lines with warm-edge flexible spacers that put Masonite Glass at the forefront of the door lite industry.

As consumer demand for bringing the outdoors in continues to grow, so does demand for higher-performing door lites. Warm-edge flexible spacers provide superior energy performance and reduced sound transmission, resulting in a more comfortable home. With a reduction in condensation, people will be able to see more clearly and enjoy the view at all times. The combination of automation and spacer performance guarantees nothing but the highest quality, meaning our products will last longer.

Discover the many benefits of our higher-performing standard glass inserts on page 102.
