

# Assembly Instructions for the Rainbow Attic Stair Display

1. First attach legs (A) to base with provided carriage bolts and nuts. It helps to lay the legs on the ground with platform (B) vertical.
2. Stand base and legs upright
3. With help lift stair box in place, attach by putting machine bolts through legs into inserts in stair header
4. Apply Eye Hook to the pre-drilled hole in the door
5. Install panel (C) between legs with screws provided
6. Apply hand rail with instructions provided
7. Apply signage as shown
