OAK, SAPELE & MAHOGANY SILLS ARE NOT WARRANTIED | ALL SILLS ARE SOLID, NOT GLUED UP

CAPTIVA FIRE-RATED DOOR CORE

20-MINUTE FIRE-RATED DOOR CROSS SECTION

The fire core is installed between the panels, offering real stile and rail door construction. Intumescent edging goes around the fire core. During a fire, this edging expands to seal the room.

Intumescent edging

45-60-90-MINUTE FIRE-RATED DOOR CROSS SECTION

The door faces surrounding the core are built using actual panel, stile, and rail components to match the profiles of 20 minute and non-rated doors. Intumescent edging goes around the fire core. During a fire, this edging expands to seal the room.

Intumescent edging

CAPTIVA FIRE-RATED WOOD DOORS

† For 60 and 90 minute, glass must be in a metal frame.

FIRE-RATED WOOD JAMBS

RATING	MAXIMUM DOOR SIZE
20 MINUTE	4/0 x 8/0 Single 7/0 x 8/0 Pair
45 MINUTE	4/0 x 8/0 Single 7/0 x 8/0 Pair
60 MINUTE	4/0 x 8/0 Single 7/0 x 8/0 Pair
90 MINUTE	4/0 x 8/0 Single

Metal jambs are also available for all single door applications and double door applications.

Captiva's fire-rated frames are available in 20-45-60-90 minute ratings. This innovative frame system helps ease the installation process through the use of adjustable metal clips, which provide additional strength while avoiding any exposed fasteners. This frame system also allows for easy removal and re-installation without damaging the finished frame. Intumescent edging is built into the jamb. During a fire, this edging expands to seal the room.

CAPTIVA FIRE-RATED DOORS & FRAMES

Modified 8078 Door, Sapele Mahogany

ARCHITECTURAL CONSISTENCY

Whether residential or commercial applications, Captiva fire-rated doors allow you to seamlessly match the Captiva non-rated doors throughout your project. All of our hundreds of panel door designs and many glass door designs (some restrictions on size) are available fire-rated.

FIRE-RATED WOOD DOOR FRAMES

Our fire-rated wood door frames allow builders and architects to comply with the strictest building code requirements without sacrificing the design integrity of the project. A fire-resistant core is wrapped with wood veneers to perfectly match the non-rated door frames throughout the project. Our fire-rated door frames are available in the wood species of your choice in stain grade, paint grade and prefinished. Our frames come standard with a patented adjustable clip system for fast and simple installation.

MADE IN THE USA

All Captiva Wood Doors are engineered and handcrafted to order at our manufacturing facility in Somerset, MA. When you choose a Captiva Wood Door, not only are you guaranteed a handmade door that will add beauty to your home for years to come, you are also helping to employ local craftsmen and artisans.

FAST LEAD TIMES

Fire-rated doors and frames delivered to you in 2-3 weeks from approved shop drawings.

TECHNICAL SPECIFICATIONS
